

Federal Communications Commission

Keith Eric Johnson, Amatuer Radio Operator KD6ZVK supports the ARRL Petition for Rule Making RM-10867 as the best and timely effort to provide additional amatuer radio operators to support "Homeland Security," where amateur radio operators provide efficient communication and support for first responders during emergency operations. I have served as a volunteer fireman and as a member of the Marin County, California Office of Emergency Services. By instituting RM-10867, first responders will have additional volunteer support from amateur radio operators when emergency communication is limited, disrupted and/or has failed. Please consider the ARRL Petition for Rule Making RM-10867 and adopted the Petition in a timely manner.
